1) Program to print "Hello World"

I/p class hello_world
{

public static void main (String a[])
{
System.out.println(" hello world");
}
}

2) Program to check if number is prime or not

class prime
{
public static void main (String a[])
{
int num=10;
int flag=0;
int i;
For (i=2;i<7,i++)
{
iF (num%i==0)
Flag=1;
}
